INTRODUCTION

The Monthly Bulletin of Employment Statistics was first issued in November, 1941, and has, with one exception, appeared every month since that date. The figures contained herein are based on data obtained from the 1933 Census, the Civilian Register of 1943, the Occupation Survey of 1945, Annual Censuses of Factory Production and Returns from Governmental Authorities, together with monthly pay-roll Tax Returns lodged by all employers (other than Commonwealth Government Authorities, religious and benevolent institutions and public hospitals) paying more than £20 per week in wages.

The terms "Employment", "Number Employed", "Employees" and "Wage Earners" herein are synonymous with, and relate to, "wage and salary earners" on pay-rolls or "in employment" in the latter part of each month as distinct from numbers of employees actually working on a specific date. They include persons employed part-time.

Figures for recent months are subject to revision. (See also note (a) on page 9).

NOTES TO TABLES 4, 5 AND 6.

(a) All figures for the months subsequent to May, 1945, are subject to revision on the basis of results of the Census of 30th June, 1947, (except for Factories, for which figures to June, 1948 are final).

(b) Includes Northern Territory and Australian Capital Territory.

(c) Refers to estimated employment in factories as defined for the purpose of the annual production census, results of which are published annually in the Production Bulletin, Part I, "Secondary Industries". In this connection, a factory is defined as an industrial establishment in which four or more hands are employed, or in which power other than hand is used. The employees covered are those engaged in manufacturing activities and exclude those engaged in selling and distribution, etc.

(d) Includes employees in industrial establishments outside the scope of the definition of a factory (given in (c) above) and persons employed by factory proprietors but engaged in selling or distribution, etc., who are excluded from figures shown opposite "Factories".

(e) Includes Law and Order, Religion and Social Welfare, Health, Education, Other Professional Services, Entertainment, etc., Personal Service (Hotels, Restaurants, etc., excluding female private domestic) and New Australians temporarily employed by Defence Authorities. In respect of females only, also includes Forestry, Fishing, etc., Mining, Building and Construction.

(f) Figures for June, 1949 were affected by the Australia-wide black coal dispute which commenced on 27th June and ended 15th August, 1949, and figures for May have therefore been substituted for purposes of annual comparison.

(g) Includes employees of private employers contracting to public authorities.

(h) Includes employees on construction of roads, bridges, earthworks, etc., and employees directly employed by public authorities on building and maintenance of buildings.

(i) Includes Hotels, Restaurants, Hairdressing and Other Personal Services (except female private domestic).

Further explanation to this table is shown on page 10.

The "All Industries" index is based on Pay-Roll Tax returns and other data, 100 females being taken as equivalent to 45 male units.

The index for manufacturing industries for the years 1942-43 to 1947-48 is based on average earnings of male wage and salary earners employed in factories as disclosed by annual factory returns. Figures subsequent to June, 1948 are preliminary estimates based on Pay-Roll Tax Returns.

TABLE 8 : AVERAGE NOMINAL WEEKLY WAGE RATES. ADULT MALES  
INDUSTRIAL GROUPS - STATES, 31ST JANUARY, 1951(a)

Index-numbers (Base: Weighted Average for Australia for three years ended June, 1939=100)

The index-numbers in the following table are based on averages of wage rates for a full week's work obtained from awards, determinations and industrial agreements. The average rate of wage for each industrial group in each State is the arithmetical average of the rates of wage payable for all classified occupations within that group. Final results for each State are weighted according to industrial groups.
